

San Elijo School STEM/Innovation ~ Household Items Donation List

There are a number of items that many families would otherwise recycle, or throw away, that we can use as materials for students to design & build prototypes with! We will be collecting these items on an on-going basis throughout the school year. Please make sure all recyclable items have been **cleaned** and **dried out** before donating. Donations may be dropped off during our SEES STEM Donation Drive. Our first donation drive will be the week of August 30th! Collection bins will be stationed in the drop off area before school. If you don't have anything this time to drop off, don't worry, we will have another collection time soon!
